SUPPLEMENTAL INFORMATION

FUND PERFORMANCE

Equity markets performed well in the 4th quarter with the MSCI All World index returning 10.7% to deliver a 4.7% total return for the year. Geopolitical events continue to erupt across the globe with wars in both Ukraine and Palestine adding to angst to a slowing global growth backdrop. Inflation rates across the world are declining due to restrictive monetary policy and a normalization of supply chains after the dislocations caused by the Covid pandemic.

The SA equity market followed global equity markets during the 4th quarter and delivered 8.2% return (Capped Swix) which ensured a return of 7.8% for the calendar year. Resources declined by -11.8% in 2023 but, equity market investors were saved by Financials (+20%) and Industrials (+16.6%) that delivered excellent returns. Gold mining (+30.8%) and Iron and Steel (+35.1%) were the best performing sectors in the 4th quarter while Chemicals (-25.8%) was the worst sector on the back of low oil prices.

Your fund outperformed its benchmark during 2023 even after a weaker performance in the 4th quarter. Our recently increased exposure to property (Growthpoint) and overweight exposure to Platinum miners such as Anglo Platinum added to performance while the banks such as ABSA detracted from performance. With lower interest rates in sight, we expected a positive reaction from local rate sensitive sectors and earnings to stabilise as the year progresses.

NOTES:

- 1 COMPOSITE DESCRIPTION : To provide the client with an actively managed, well diversified portfolio managed on an above risk basis. The investment approach is long-term in nature.
- 2 BENCHMARK CREATION : Published Index
- 3 FIRM DEFINITION : Vunani Fund Managers (Pty) Ltd is registered with the Financial Sector Conduct Authority (FSCA) as a discretionary Financial Service Provider, License 608. The GIPS firm includes all portfolios managed by Vunani Fund Managers.

- 6 PERFORMANCE CALCULATION : Performance results are presented gross of management and performance fees, after deducting trading expenses, custodial fees and bank charges. Trading expenses include brokerage, trade settlement fees, taxes and trading levies as well as VAT thereon. The aggregate return method is used which combines all the composite assets and cash flows to calculate composite performance as if the composite were one portfolio.
- 7 LIST AND DESCRIPTION OF COMPOSITES : A complete list and description of all composites is available by emailing a request to info@vunanifm.co.za.
- 8 LEVERAGE AND DERIVATIVES : The use of derivatives is limited to exchanged traded futures and options for the purpose of maintaining the correct exposure to asset classes whilst providing liquidity.
- 9 LEVERAGE AND DERIVATIVES : Derivatives may be employed as risk mitigating strategies.
- 10 INCONSISTENCIES IN EXCHANGE RATES : Vunani Fund Managers use I-Net quotations for foreign exchange (FX) rate conversions. Due to timing differences, FX rates used to value instruments in the individual client portfolios may differ from the FX rates used by Vunani Fun Managers for benchmark conversion to local currency. Vunani Fund Managers accepts this variance in FX rates as immaterial and do not make any adjustments for such variances.
- 11 DISPERSION : Vunani Fund Managers uses the standard deviation across portfolio returns represented within the composite for the full year to calculate dispersion. Portfolios must be in a composite for the full period for which dispersion is being measured.
- 12 FEE STRUCTURE : A sliding scale fee structure applies to this composite from 70bps to 50bps based on market value of investment.
- 13 WITHHOLDING TAXES : Proceeds on sales and income are accounted for net of any withholding taxes until such time as any reclaimable portion is received.
- 14 Vunani Fund Managers negotiates fees with each individual client in line with the standard company fee schedule.
- 15 Additional information regarding policies for calculating and reporting returns is available on request
- 16 CASH FLOWS : A fund may be removed from the composite, should a cash flow be greater than 5% of that fund. Once the fund has been realigned, it will be included again.
- 17 Benchmark components, weights and the rebalancing process is available on demand.
